

Complex Logistics Simplified

General exports

We create a personalised logistical solution to ensure a seamless exporting experience.

Transporting all kinds of goods to anywhere in the world with our network of global partners, we give all of our clients a completely personalised experience, streamlining supply chains and reducing overall costs.

With air, sea, overland and warehousing capabilities, we develop solutions that perfectly fit your individual needs - regardless of the complexity of your supply chain. We work as a FAK (Freight All Kinds) service provider, allowing us to export goods without hassle. We endeavour to provide a seamless service every time.

Working with WTA UK means you will have access to your own account manager, who can assist you throughout the entire journey, to ensure your goods arrive safe and sound. Your account manager will also be able to assist you in determining the best course of action for your freight, depending on your requirements.

We create clarity and maximise the effectiveness of your supply chain.

For those with complicated supply chains, the shipping of your goods can be time-consuming and costly. To help you streamline your supply chain and maximise the effectiveness of your logistics, WTA UK offers a fully comprehensive supply chain management service.

Working hand-in-hand with you, our team of supply chain specialists perform an in-depth analysis of your current supply chain, carefully mapping out your relevant business activities to ensure that we fully understand your operations and objectives.

From here, we can develop a completely personalised solution that will not only streamline your supply chain but also reduce your overall costs as a result.

By following our four-step process, your supply chain is transformed into a beacon of streamlined efficiency.

Our expertise means you receive a customised logistics service.

At WTA UK, we are experts across the whole logistics supply chain. We always personalise our approach according to our client's requirements. For this reason, we provide a variety of logistics services including Air Freight, Overland Freight and Sea Freight.

WTA Air Freight

Whether you have a one-off shipment or daily needs, we can develop an air freight solution that works best for you. With long-standing relationships with the best in class carries across the globe, you can depend on our speed, reliability and security when delivering your goods.

WTA Overland Freight

Our overland freight services are entirely customisable. By working with select, quality assured partners, we can give you the versatility, reliability and value you need to make your operations a streamlined success.

WTA Sea Freight

The process of transporting your goods via sea takes a great deal of organisation and attention to detail. At WTA, we take care of the entire process from A to B. We have regularly scheduled sailings on the world's significant trade routes, as well as the capacity to ship to any port that you require. We also offer you consolidation, full container, out of gauge and temperature-controlled services.

BEST IN CLASS

WTA UK provides complete visibility from start to finish.

The secure delivery of your goods is deeply embedded in our transport operations. For your peace of mind and convenience, we can give you 24/7 visibility of your goods. More so, we can provide you with access to any information you desire.

Aside from this, we can also provide value-added services that fulfil your unique supply chain requirements, including pick and pack, labelling and inventory management.

Our bespoke online solutions give you total control with full shipment visibility. Management reporting and competitive pricing ensure you receive outstanding value for money.

SYSTEM INTEGRATION

We tailor our logistics to your shipping requirements.

As leading experts, a core part of our service for clients is completing our due diligence and understanding the exports process on a worldwide scale.

WTA UK is both AEO Certified and C-TPAT Certified. We have a thorough understanding of customs requirements on a local level and will help you navigate this complex process.

Before exporting your goods, WTA UK will assist you in taking the necessary steps to ensure a smooth-sailing process. WTA UK will work with you to ensure your product meets all legal requirements and that you have met all of the required labelling and licensing standards.

WTA is here to help.

Exporting from the UK to anywhere around the globe takes planning and precision. There are many complexities to be considered and WTA UK are ready to work with you to ensure the smooth sailing of your exports.
