

Seamless US Export Logistics With WTA UK

US Exports

WTA UK has over 50 years of experience operating in the North American market.

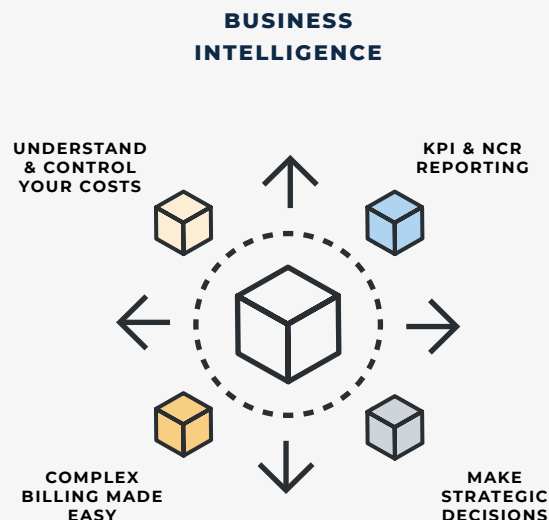

We pride ourselves on offering the best service, best routing and best transit times. As an independent and privately owned with offices both in the UK and the US, our teams can be flexible, competitive and offer complete visibility.

With air, sea, overland and warehousing capabilities, we develop solutions that perfectly fit your individual needs - regardless of the complexity of your supply chain. We work as a FAK (Freight All Kinds) service provider, allowing us to export goods without hassle. We endeavour to provide a seamless US export service every time.

We maximise the effectiveness of your supply chain.

For those with complicated supply chains, the shipping of your goods can be time-consuming and costly. To help you streamline your supply chain and maximise the effectiveness of your logistics, WTA UK offers a fully comprehensive supply chain management service. We work to create financial savings, remove complexity and give back time to concentrate on core competencies.

Our expertise means your complex logistics can be simplified.

It is our mission to ensure that when you import products into the US, you are compliant with US Trade requirements. We identify what is needed specifically for your commodity and work with you to provide the correct classification. Our understanding of compliance regulations gives us the advantage to be the liaison between the Importer and US Customs.

We have expertise in challenging commodities, especially the ones subject to FDA and USDA. We make sure your entries are filed timely and in compliance with US Customs and all other government agencies. We are a functional user of the ACE system, have a corporate US Customs License and have the ability to file remote entries.

WTA UK is AEO Certified and WTA USA is a certified provider in the C-TPAT supply chain security programme.

BEST IN CLASS

WTA UK work to provide immediate access to information.

Using advanced, digital process management, we can streamline vital data, enabling fact-based decision making. Our bespoke online solutions give you total control with full shipment visibility, and KPI reporting facilities monitor carriers routing, transit times to guarantee there is no guesswork.

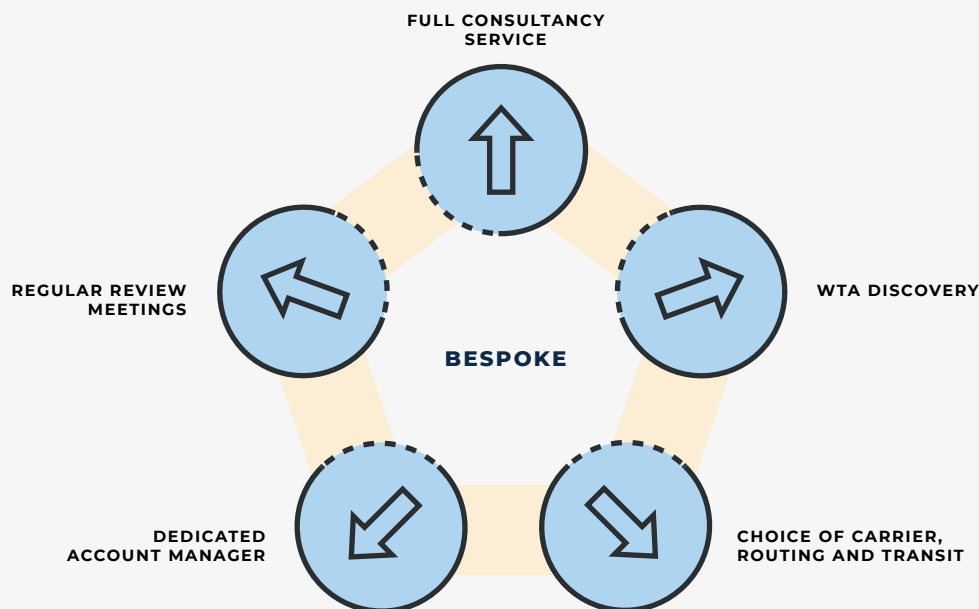

The WTA teams work in close partnership with Shipper and Consignee to thoroughly map, and understand their current practices and objectives. By making the right choices, from the carrier, routing to transit; we can assure the control of freight and costs.

We aim to create transparency in your process.

The WTA Discovery tool provides real time visibility in your supply chain, so we always know the ETA. We offer weekly consolidations where WTA UK is the "Master Loader ". No co-loading means the freight is shipped direct and under our control. You will also benefit from faster transit times and priority de-vanning on all consolidation boxes in the US.

WTA UK provides bespoke exporting solutions to ensure you maintain total control over supply chain processes and your goods reach the US without hindrance.

WTA is here to help.

Exporting from the UK to anywhere around the globe takes planning and precision. There are many complexities to be considered and WTA UK are ready to work with you to ensure the smooth sailing of your exports.
